LARGE	30"	23"	<input type="checkbox"/>

GRAPHIC INSTANCES:

# OF INSTANCES	1	2	3	4
GRAPHIC LOCATIONS				
SELECT ONE	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>

GRAPHIC REFERENCE REQUIREMENTS:

To ensure your custom design is produced accurately, we need a high-quality reference image **included with this form**.

Preferred:

Upload a vector file, such as: .svg, .ai, .dxf, or .dwg (These scale cleanly and give the best results)

Alternative:

If you don't have a vector file, send a high-resolution image — at least 300 DPI (dots per inch) at full size. Common file types: .jpg, .png, .tif, etc.

SPECIAL NOTES:

DISCLAIMER:

Due to the nature of how this custom metal firepit is fabricated, all final graphics are simplified interpretations of the original reference material.

- Floating pieces, shading, and multiple colors cannot be included.

- All designs must be converted to a clean, single-color line drawing suitable for cutting.

We will do our best to stay true to your artwork, but some adjustments may be necessary to ensure the design can be properly machined.

CAD Drawing approval required prior to fabrication.
